British Triathlon Youth & Junior Super Series

The 2019 British Triathlon Youth & Junior Super Series is designed to bring together the best young triathletes from across the UK, so they can race head to head at the best and most exciting venues in the country.

The Youth and Junior Super Series has developed massively in terms of both athlete numbers and competitive standards in the past four years. This has led to us making a number of changes this season - please read our 'Super Series Moving Forward' booklet which explains these.

Rising numbers and standards have also meant that entry requirements and processes have developed year on year, these have again evolved for 2019 - please read our 'Super Series Explained' document which details these.

British Triathlon gives serious thought and consideration to athlete development and 2018 saw the launch of a new set of Wheel Regulations.

To better understand the reasoning behind these changes as well as to improve knowledge of what is a complicated part of racing British Triathlon have produced a booklet on Wheel Regulations across the TriStar, Youth and Junior Pathway, which is accessible via the button below.

TriStar
