What is it?

Skills School is the first coach development programme from British Triathlon specifically aimed at coaches working with children.

Unlike traditional forms of coach education, Skills School is unique in that it harnesses the power of experiential learning and combines this with support from experienced coaches, coach developers and a coaching framework.
Why should I get involved?

• to gain valuable experience coaching alongside other coaches
• get access to the Skills School Framework and resources
• be part of a community of practice specific to coaching children
• it counts towards British Triathlon accreditation process

and ultimately...

• to develop yourself as a coach!

Skills School will launch nationally in September 2016. For more information speak to your Regional Skills School Lead Coach: details can be found at britishtriathlon.org/skillsschool
