

Leaving Home

3: Your first day

1

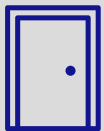

You will be terrified at some stage - everyone is, it perfectly natural and you're not alone!

2

Meeting new people is awkward and can feel weird - everyone is in the same boat just get on with it! *

*You will forget everyone's name at least once - embrace it!

3

You'll want to prop your door open to let everyone know that you're in

4

You'll have forgotten something - everyone does! Ask a neighbour/flatmate what they have.

5

You'll get tired of the same 5 questions

1. What's your name? 2. Where are you from? 3. What course are you on?
4. What A levels did you do? 5. What block/house/residence are you in?

But also keep asking them yourself!

6

Be prepared for a cringe-worthy photo at some point! It's a big day for your family too

7

You may want to sit alone in your room at some point. Try not to! Shared experiences are what drives friendships
